

TECHNICAL PROFESSIONAL

FCS - HAIRDRESSING

Grade 12

**Three-Term Budget Of Work (BOW)
for Learning Competencies**

**TECHNICAL PROFESSIONAL
FCS - AESTHETIC, WELLNESS, AND HUMAN CARE
Grade 12**

**Three-Term Budget Of Work
For Learning Competencies**

Please note that each TechPro elective is completed within one term if delivered at Grade 12.

Term Plan	
Elective	Hairdressing
Content Standard	• The learner demonstrates an understanding of the concepts and principles of haircutting. • The learner demonstrates an understanding of the principles of hair treatments. • The learner demonstrates an understanding of the principles of hair bleaching and coloring. • The learner demonstrates an understanding of the principles of hair rebonding and perming.
Performance Standard	The learners perform haircutting techniques. The learners perform hair treatment following the quality standards of hairdressing. The learners perform bleaching and coloring services following the quality standards. The learners perform rebonding and perming services and safety considerations and industry standards.

Week	Learning Competency	Suggested Activities
1	• Discuss the concept of hairdressing. • Explain the fundamentals of hairdressing. • Explain the theory & chemistry of hair. • Discuss the proper handling of chemicals, tools, materials, and equipment used in hairdressing.	• Hairdressing History Timeline ◦ Research and create a timeline showing the evolution of hairdressing from traditional to modern practices. • Hairdressing Concept Map ◦ Make a concept map showing the main ideas, types, and purposes of hairdressing services. • Hairdressing Principles Summary ◦ Write a summary explaining the fundamental principles of hairdressing, including hygiene, safety, and client care. • Fundamentals Presentation ◦ Prepare a visual presentation illustrating the key fundamentals and their application in daily hairdressing services. • Hair Structure Diagram ◦ Draw and label a diagram of hair structure, including chemical composition and types. • Hair Chemistry Report ◦ Write a report explaining the chemical properties of hair and how they affect treatment and styling. • Safety Manual Creation ◦ Create a manual outlining proper

Week	Learning Competency	Suggested Activities
		handling, storage, and disposal of chemicals, tools, and materials in hairdressing. • Equipment Handling Guide ◦ Make a guide showing correct usage and maintenance procedures for hairdressing equipment.
2	• Perform pre and post-hair services. • Discuss the steps of client consultation for haircutting services. • Explain the characteristics and procedures of the different haircutting techniques.	• Service Checklist ◦ Develop a checklist for pre- and post-service procedures including sanitation, client comfort, and consultation steps. • Service Procedure Flowchart ◦ Create a flowchart illustrating the step-by-step process of pre- and post-hair services. • Consultation Script ◦ Write a sample client consultation script including questions to determine hair needs, preferences, and health considerations. • Consultation Role Scenario ◦ Develop a scenario that demonstrates proper consultation steps before a haircut service. • Haircutting Technique Notes ◦ Write notes describing various

Week	Learning Competency	Suggested Activities
		haircutting techniques (layering, texturizing, graduation) and their characteristics. • Technique Comparison Table ◦ Create a table comparing different haircutting techniques including tools, procedure, and ideal client hair type.
3	• Discuss haircutting materials, tools, equipment, and use. • Apply haircutting techniques and aftercare services.	• Haircutting Tools Diagram ◦ Draw a diagram labeling common haircutting tools and their specific uses. • Materials Usage Chart ◦ Create a chart detailing the materials and equipment used in haircutting and their functions. • Haircut Procedure Checklist ◦ Develop a step-by-step checklist for performing a haircut including aftercare tips. • Aftercare Guide ◦ Prepare a guide for clients on post-haircut maintenance and care.
4	• Explain the principles of hair treatment. • Differentiate hair treatment products and services. • Identify different treatment tools and	• Hair Treatment Summary ◦ Write a summary explaining the principles of hair treatment and how they protect hair integrity.

Week	Learning Competency	Suggested Activities
	equipment needed.	• Treatment Concept Map ◦ Make a concept map showing principles, types, and goals of hair treatments. • Product Comparison Chart ◦ Create a chart comparing hair treatment products, their ingredients, and intended results. • Service Differentiation Table ◦ Make a table showing the types of hair treatment services and their differences in procedure and outcomes. • Tools Inventory List ◦ Create a comprehensive list of tools and equipment used in hair treatment with their functions. • Equipment Care Guide ◦ Develop a guide for cleaning, storing, and maintaining hair treatment tools.
5	• Perform hair treatment procedures. • Plan follow-up services for clients.	• Treatment Step-by-Step Flowchart ◦ Create a flowchart showing the steps of a specific hair treatment procedure. • Treatment Documentation Template ◦ Develop a template to record client hair treatment details, procedure steps, and aftercare instructions.

Week	Learning Competency	Suggested Activities
		• Follow-Up Plan Template ◦ Create a template for planning follow-up appointments, treatments, and hair care recommendations. • Client Follow-Up Schedule ◦ Develop a sample schedule showing follow-up services for multiple clients over one month.
6	• Discuss the importance of hair bleaching and coloring. • Explain factors to consider in applying hair color. • Explain the different hair-coloring techniques.	• Benefits Summary ◦ Write a short report explaining the benefits and risks of hair bleaching and coloring. • Hair Coloring Case Study ◦ Analyze a client case and recommend whether hair coloring or bleaching is appropriate. • Hair Color Factors Chart ◦ Create a chart listing factors (hair type, condition, desired result) affecting hair color application. • Scenario Analysis ◦ Review different client hair scenarios and determine the best coloring approach for each. • Coloring Techniques Notes ◦ Write notes describing various hair-coloring techniques (highlights,

Week	Learning Competency	Suggested Activities
		balayage, ombre) and their application. • Technique Comparison Table ◦ Make a table comparing techniques including process, time, and recommended hair types.
7 to 8	• Perform procedures of hair bleaching and coloring. • Perform aftercare services.	• Bleaching/Coloring Procedure Flowchart ◦ Create a step-by-step flowchart for performing hair bleaching or coloring safely. • Client Record Template ◦ Develop a template to record hair bleaching or coloring procedures, including client hair condition and aftercare instructions.
9	• Discuss the principles of hair perming and rebonding. • Discuss the effects of rebonding and perming products.	• Aftercare Instruction Sheet ◦ Create a sheet explaining post-bleaching, coloring, or treatment hair care for clients. • Aftercare Schedule ◦ Design a sample aftercare schedule showing recommended treatments and maintenance for one month. • Principles Summary ◦ Write a summary explaining key principles of hair perming and

Week	Learning Competency	Suggested Activities
		rebonding. • Visual Aid Creation ◦ Create a poster showing the principles and objectives of hair perming and rebonding.
10 to 11	• Identify tools, materials, and equipment used in perming and rebonding. • Explain the factors to consider in applying hair perming and rebonding. • Conduct pre-assessment procedures in rebonding and perming. • Explain aftercare services.	• Product Effects Chart ◦ Create a chart showing different products used for rebonding and perming and their effects on hair. • Case Scenario Analysis ◦ Review client hair types and suggest appropriate products and expected effects. • Tools Inventory List ◦ List all tools, materials, and equipment used in perming and rebonding, noting their specific function. • Equipment Maintenance Guide ◦ Prepare a guide for the proper cleaning, storage, and handling of rebonding and perming equipment. • Factors Chart ◦ Make a chart listing client, hair, and environmental factors to consider before perming or rebonding. • Scenario Planning ◦ Analyze client cases and determine the

Week	Learning Competency	Suggested Activities
		correct approach to perming or rebonding based on these factors. • Pre-Assessment Checklist ○ Create a checklist of pre-assessment procedures including hair type, condition, and client consultation. • Case Study Pre-Assessment ○ Conduct a mock pre-assessment for a client scenario and document findings and recommendations.
Suggested Performance Tasks	• Individual Activity: Haircut Practice ○ Perform a basic haircut (e.g., layered, blunt, or texturized) on a mannequin or model while following proper technique and safety standards. • Group Activity: Haircut Consultation & Demonstration ○ In groups, conduct a client consultation scenario, decide on the appropriate haircut, and demonstrate the selected haircut technique on a mannequin, discussing proper tools and aftercare. • Individual Activity: Hair Treatment Procedure ○ Perform a hair treatment (e.g., conditioning, protein, or moisturizing treatment) on a mannequin or model, ensuring proper application and adherence to quality standards. • Group Activity: Hair Treatment Planning & Evaluation ○ In groups, plan and perform a hair treatment service for a mannequin or model, then evaluate each other's technique, application accuracy, and safety adherence. • Individual Activity: Hair Bleaching/Coloring Practice ○ Perform a hair bleaching or coloring service on a mannequin or model, following proper procedures, safety precautions, and aftercare recommendations.	

Week	Learning Competency	Suggested Activities
	• Group Activity: Hair Color Consultation & Service Simulation ○ In groups, conduct a mock client consultation, decide on hair color or bleaching plan, apply the color/bleach on a mannequin, and present proper aftercare instructions. • Individual Activity: Rebonding/Perming Procedure ○ Perform a rebonding or perming procedure on a mannequin or model while following safety guidelines, correct product application, and step-by-step quality standards. • Group Activity: Pre-Assessment & Service Simulation ○ In groups, conduct a pre-assessment of a mannequin's hair condition, plan the appropriate rebonding or perming procedure, perform the service, and evaluate adherence to safety and industry standards.
