FCS - HOTEL OPERATION (HOUSE KEEPING SERVICES)

Grade 12

**Three-Term Budget Of Work (BOW)
for Learning Competencies**

TECHNICAL PROFESSIONAL FCS - HOSPITALITY AND TOURISM Grade 12

Three-Term Budget Of Work For Learning Competencies

Please note that each TechPro elective is completed within one term if delivered at Grade 12.

Term Plan	
Elective	Hotel Operation (House Keeping Services)
Content Standard	• The learners demonstrate understanding of the principles, practices, and standards of providing housekeeping services in the hospitality industry. • The learners understand the principles, practices, and innovations in housekeeping services in accordance with industry standards. Analyze trends, organizational structures, room classifications, and service excellence in hospitality management, reflecting the demands of a globally competitive and sustainable tourism and hospitality sector. • The learners demonstrate understanding of the principles, methods, and techniques of housekeeping services, including the proper use, care, and maintenance of tools, equipment, and supplies, with emphasis on ergonomics, environmental sustainability, and best practices. • The learners demonstrate understanding of the principles, techniques, and standards in housekeeping operations, including the identification and proper handling of hotel linens, laundry and ironing operations, personalized guest services, customer relations, facility evaluation, and housekeeping safety and security.
Performance Standard	The learners demonstrate familiarity of the different types of hotels, classifications of guest and the services hotels provide to the guest. The learners describe the functions of the different sections of the hotel, classify guest rooms and status. The learners perform the cleaning

	procedures of guest rooms in accordance to room status following Occupational Health and Safety standards. The learners exhibit techniques in linen management, laundry and ironing operations, valet/butler services, customer care, and apply effective strategies for handling complaints.
--	---

Week	Learning Competency	Suggested Activities
1	- Discuss the overview of hotel services. - Compare the types of hotels according to their classification and accommodation products.	Hotel Services Report - Write a report summarizing the different services provided by hotels and their importance to guest satisfaction. Hotel Services Presentation - Prepare a presentation showing examples of hotel services and their functions in guest experience. Hotel Classification Report - Research and write a report comparing hotels by classification (star rating, boutique, resort) and accommodation products. Hotel Comparison Chart - Create a chart or infographic comparing types of hotels, highlighting features, amenities, and target markets.

Week	Learning Competency	Suggested Activities
2	- Differentiate types of hotel guests. - Discuss the fundamentals of housekeeping services.	Guest Profile Report - Identify and describe different types of hotel guests and their preferences. Guest Scenario Simulation - Role-play different guest types and discuss appropriate service responses. Housekeeping Fundamentals Essay - Write an essay explaining the key principles and functions of housekeeping services. Housekeeping Workflow Diagram - Create a visual diagram showing the typical workflow in housekeeping operations.
3	- Analyze the trends in housekeeping services. - Discuss the organizational structure of the housekeeping department and its functions.	Trend Analysis Report - Research and write about current trends in housekeeping, such as sustainability and automation. Trend Presentation - Present your findings on modern housekeeping trends with practical examples. Organizational Structure Report - Write a report describing the housekeeping department structure and functions of each position.

Week	Learning Competency	Suggested Activities
		• Organizational Chart Creation ◦ Create a chart showing the hierarchy and responsibilities of housekeeping personnel.
4	• Discuss the classification of guestrooms and status • Evaluate the types of rooms according to bed type, layout, amenities, and special features.	• Guestroom Classification Report ◦ Describe the types of guestrooms and their status categories (e.g., occupied, vacant, out-of-order). • Guestroom Status Simulation ◦ Create a mock tracking system for guestroom status and simulate updates. • Room Type Analysis ◦ Analyze different room types, bed arrangements, amenities, and special features. • Room Comparison Presentation ◦ Present a comparison of room types and their suitability for different guest needs.

Week	Learning Competency	Suggested Activities
5	• Demonstrate cleaning methods and techniques using tools, supplies, and equipment with applied ergonomics, environmental sustainability, and best practices. • Discuss the care and maintenance of the hotel furniture, fixtures, and fittings.	• Cleaning Methods Practice ◦ Demonstrate proper cleaning techniques using housekeeping tools and equipment while following ergonomics and safety. • Cleaning Techniques Simulation ◦ In groups, perform cleaning procedures in a mock room, applying sustainable practices. • Maintenance Report ◦ Write a report explaining proper care and maintenance of furniture, fixtures, and fittings in hotel rooms. • Maintenance Demonstration ◦ Demonstrate cleaning, polishing, and minor maintenance techniques for furniture and fixtures.
6	• Perform guestroom cleaning procedures according to room state. • Apply procedures in cleaning hotel common areas.	• Room Cleaning Practice ◦ Clean a guestroom according to its status (occupied, vacant, check-out) following standard procedures. • Room Cleaning Simulation ◦ Perform a team exercise cleaning multiple rooms, ensuring efficiency and quality. • Common Area Cleaning Practice ◦ Clean a hallway, lobby, or restroom

Week	Learning Competency	Suggested Activities
		following proper procedures and safety standards. • Common Area Maintenance Simulation ◦ Perform a group simulation maintaining multiple common areas in a timed exercise.
7	• Identify type of hotel linens and materials. • Perform linen laundry operations based on the types of linen. •	• Linen Identification Exercise ◦ Identify different types of hotel linens and their uses, noting fabric types and care instructions. • Linen Presentation ◦ Create a visual display or chart showing types of linens, materials, and applications in hotels. • Laundry Operations Practice ◦ Perform laundry operations on different types of linen, following proper procedures. • Laundry Workflow Simulation ◦ In groups, simulate the process of sorting, washing, drying, and folding hotel linens.
8	• Perform ironing operations by applying ironing techniques. • Show a personalized and specialist service to guests.	• Ironing Practice ◦ Apply proper ironing techniques to different linens, ensuring wrinkle-free results.

Week	Learning Competency	Suggested Activities
		• Ironing Station Simulation ◦ In groups, set up an ironing station and iron multiple linens efficiently. • Personalized Service Reflection ◦ Write a reflection on how to provide personalized and specialist services to meet guest needs. • Service Simulation ◦ In groups, role-play scenarios delivering personalized services for VIP or special guests.
9	• Demonstrate strategies for handling customer complaints and intoxicated guests.	• Complaint Handling Reflection ◦ Write a reflection identifying strategies to manage guest complaints and intoxicated guests. • Role-Play Simulation ◦ In groups, simulate handling complaints and difficult guests professionally.
10	• Evaluate the purpose of monitoring and evaluation using housekeeping forms and reports.	• Monitoring Report Analysis ◦ Evaluate housekeeping reports and forms to identify trends and areas for improvement. • Group Monitoring Exercise ◦ Simulate recording, reviewing, and analyzing housekeeping reports for

Week	Learning Competency	Suggested Activities
		quality control.
11	Discuss common safety hazards in the housekeeping environment.	Safety Report - Identify and describe common safety hazards in housekeeping and preventive measures. Safety Simulation - Perform a mock inspection of a housekeeping environment, identifying hazards and proposing solutions.
Suggested Performance Tasks		Individual Activity: Hotel Types and Services Report - Write a detailed report identifying different types of hotels, classifications of guests, and the services provided to each guest type. Group Activity: Hotel Services Presentation - In groups, create a visual presentation comparing hotel types, guest classifications, and the corresponding services offered. Individual Activity: Hotel Sections Report - Write a report describing the functions of different hotel departments and classify guest rooms according to type and status. Group Activity: Hotel Structure and Room Status Diagram - Create a group diagram showing hotel sections, their functions, and a chart of guestroom types and statuses. Individual Activity: Guestroom Cleaning Practice - Perform cleaning of a guestroom according to its status (vacant, occupied, check-out), following proper safety and hygiene procedures. Group Activity: Guestroom Cleaning Simulation - In groups, clean multiple guest rooms with assigned statuses, ensuring efficiency,

Week	Learning Competency	Suggested Activities
	safety, and quality standards. • Individual Activity: Housekeeping and Customer Care Practice ○ Perform linen handling, laundry, and ironing operations, and practice techniques for providing personalized service and handling guest complaints. • Group Activity: Housekeeping and Service Simulation ○ In groups, simulate a full housekeeping service scenario, including linen management, valet/butler service, customer care, and handling complaints professionally.
