

TECHNICAL PROFESSIONAL

FCS - KITCHEN OPERATION

Grade 12

**Three-Term Budget Of Work (BOW)
for Learning Competencies**

TECHNICAL PROFESSIONAL FCS - HOSPITALITY AND TOURISM Grade 12

Three-Term Budget Of Work For Learning Competencies

Please note that each TechPro elective is completed within one term if delivered at Grade 12.

Term Plan	
Elective	Kitchen Operation
Content Standard	• The learners demonstrate an understanding of the fundamentals of culinary arts. • The learners demonstrate an understanding of preparing, presenting and storing stocks, soup and sauces. • The learners demonstrate an understanding of preparing, presenting and storing sandwiches. • The learners demonstrate an understanding of preparing, presenting and storing salads and dressings. • The learners demonstrate an understanding of preparing, presenting and storing, egg, cereal, and starch dishes. • The learners demonstrate an understanding of preparing, presenting and storing vegetable dishes. • The learners demonstrate an understanding of preparing, presenting and storing seafood dishes. • The learners demonstrate an understanding of preparing, presenting and storing poultry and game dishes. • The learners demonstrate an understanding of preparing, presenting and storing meat dishes. • The learners demonstrate an understanding of preparing, presenting and storing

	desserts. • The learners demonstrate an understanding of entrepreneurship in the food industry.
Performance Standard	The learners demonstrate fundamental skills in culinary arts. The learners prepare a variety of stocks, soup and sauces. The learners prepare a variety of appetizers. The learners prepare a variety of salads and dressings. The learners prepare and cook a variety of egg, cereal, and starch dishes. The learners prepare and cook a variety of vegetable dishes. The learners prepare and cook a variety of seafood, poultry, meat dishes and desserts. The learners collaborate to organize and manage a kitchenpreneur bazaar.

Week	Learning Competency	Suggested Activities
1	- Discuss the fundamentals of culinary arts. - Perform knife skills.	Culinary Foundations Concept Map - Create a concept map showing the major branches of culinary arts (history, kitchen hierarchy, standards, tools, safety). Culinary Principles Reflection - Write a short reflection explaining why culinary principles (mise en place, sanitation, accuracy) are essential in kitchen operations. Knife Cuts Demonstration - Perform and document 5 basic knife cuts (julienne, brunoise, dice, chiffonade, batonnet).

Week	Learning Competency	Suggested Activities
		• Knife Identification & Use ◦ Match different knives to their correct uses and explain why each knife is suited for its task.
2	• Perform conversion and food costing of provided recipe. • Discuss presenting, packaging, labeling and storing of food products.	• Recipe Conversion Exercise ◦ Convert a 4-serving recipe into 8 and 12 servings. • Food Costing Worksheet ◦ Compute food cost, cost per serving, and profit margin for a selected recipe. • Food Presentation Analysis ◦ Evaluate 3 plated dishes and describe the presentation techniques used. • Packaging & Label Design ◦ Create a simple food label including product name, ingredients, date, and storage instructions.
3 to 4	• Prepare a variety of stocks, soups, and sauces.	• Stock Preparation ◦ Prepare one type of stock (white, brown, or vegetable) and record the process. • Soup and Sauce Pairing ◦ Prepare one soup and match it with an appropriate sauce, explaining your choice • Soup Creation Challenge

Week	Learning Competency	Suggested Activities
		○ Prepare one clear or thick soup using available ingredients ● Appetizer Assembly ○ Create 2 types of appetizers (cold and hot) and present them on a platter.
5	● Prepare a variety of soup and appetizers.	● Soup Creation Challenge ○ Prepare one clear or thick soup using available ingredients ● Appetizer Assembly ○ Create 2 types of appetizers (cold and hot) and present them on a platter.
6	● Prepare a variety of sandwiches.	● Sandwich Layering Task ○ Prepare one cold sandwich and one hot sandwich with proper layering technique ● Signature Sandwich Creation ○ Design and prepare your own signature sandwich and describe its components.
7	● Prepare a variety of salads.	● Green Salad Preparation ○ Prepare a tossed green salad with homemade dressing. ● Composed Salad Plating ○ Assemble a composed salad focusing on balance, color, and texture.

Week	Learning Competency	Suggested Activities
8	Prepare various types of egg, cereal, and starch dishes.	Egg Cookery Demo - Prepare two egg dishes using different cooking methods. Starch-Based Dish Task - Prepare a cereal or starch dish (rice, pasta, or porridge) and document the steps.
9	Prepare a variety of vegetable dishes following appropriate cooking methods	Vegetable Cooking Methods - Cook vegetables using two methods (steaming, blanching, sautéing, or roasting) Vegetable Texture Evaluation - Prepare a vegetable dish and evaluate texture, color retention, and doneness.
10	- Prepare variety of seafood dishes. - Prepare various poultry and game dishes. - Prepare variety of meat dishes. - Prepare a variety of desserts.	Seafood Preparation - Prepare one seafood dish using proper cleaning and cooking techniques. Seafood Doneness Check - Cook a seafood item and assess doneness based on appearance and texture. Poultry Fabrication Demo - Perform basic poultry cutting or portioning. Poultry Dish Preparation - Prepare one poultry dish using a dry or

Week	Learning Competency	Suggested Activities
		moist heat method. • Meat Tenderness Experiment ◦ Cook the same cut of meat using two different methods and compare tenderness. • Signature Meat Dish ◦ Prepare a meat entrée and present it with appropriate sides. • Cold Dessert Creation ◦ Prepare a no-bake dessert (parfait, gelatin, refrigerator cake). • Hot Dessert Preparation ◦ Bake or cook a simple hot dessert (flan, fried banana, baked goods).
11	• Organize and manage a kitchen entrepreneur food bazaar	• Menu Planning for Food Bazaar ◦ Develop a 3-item menu including costing, pricing, and target customers. • Food Booth Setup Plan ◦ Create a layout and plan for your food booth, including signage, workflow, and packaging.
Suggested Performance Tasks		• Individual Performance Task: Culinary Skills Demonstration ◦ Perform basic culinary skills (mise en place, sanitation, and knife handling) and submit a video or photo documentation. • Group Task: Kitchen Workflow Simulation ◦ In groups, create a simulated kitchen setup showing proper stations, workflow,

Week	Learning Competency	Suggested Activities
		and teamwork roles. • Individual Performance Task: Stock and Sauce Preparation ◦ Prepare one type of stock (white/brown/vegetable) and one basic sauce, and document the process. • Group Task: Soup Trio Collaboration ◦ As a group, prepare three different soups (clear, thick, and specialty) and present them in a tasting session. • Individual Performance Task: Sauce Matching Task ◦ Prepare one sauce and explain which dishes it pairs best with. • Group Task: Stock-Based Dish Challenge ◦ Prepare a dish that uses a stock as a base (e.g., risotto, gravy, or stew) and present it with explanation. • Individual Performance Task: Cold Appetizer Preparation ◦ Prepare one cold appetizer (e.g., canapé or salad bite) and submit plated documentation. • Group Task: Hot Appetizer Sampler ◦ Create a sampler platter of hot appetizers and present them in a buffet-style setup. • Individual Performance Task: Creative Finger Food ◦ Create a unique finger food using available ingredients and explain the flavor profile. • Group Task: Appetizer Platter Collaboration ◦ Prepare a themed appetizer platter (Asian, Mediterranean, Filipino, etc.) and present with menu cards. • Individual Performance Task: Salad and Dressing Duo ◦ Prepare one salad and a homemade dressing, then evaluate texture and flavor. • Group Task: Salad Bar Setup ◦ Create a mini salad bar offering at least three salad types and two dressings.

Week	Learning Competency	Suggested Activities
		• Individual Performance Task: Egg Cookery Demo ○ Prepare two egg dishes using different cooking methods and document the output. • Group Task: Cereal & Starch Trio ○ Prepare three dishes (one cereal-based, one pasta/rice dish, and one starch-based dessert or snack). • Individual Performance Task: Vegetable Cooking Method Task ○ Cook vegetables using any two methods (steaming, sautéing, or roasting) and compare results. • Group Task: Vegetable Entrée Creation ○ Prepare a complete vegetable entrée with garnish, sauce, and plating. • Individual Performance Task: ○ Seafood Cooking Task ■ Cook vegetables using any two methods (steaming, sautéing, or roasting) and compare results. ○ Seafood Marinade Experiment ■ Create a marinade and apply it to a poultry dish, then evaluate flavor absorption. ○ Meat Dish Preparation ■ Prepare one meat entrée using a dry or moist heat method and document process. ○ Cold Dessert Creation ■ Prepare one cold dessert (parfait, gelatin, no-bake cake) and submit plating documentation. • Group Task: ○ Seafood Platter Collaboration ■ Prepare a platter with three seafood dishes, each using a different technique (grilling, frying, steaming). ○ Sea-to-Table Presentation

Week	Learning Competency	Suggested Activities
		■ Prepare a themed chicken menu (starter, main, side) and present as a group. ○ Meat Cooking Showcase ■ Prepare a complete meal set featuring meat as the main ingredient, including sides and sauce. ○ Dessert Buffet Table ■ Create a mini dessert buffet with at least 3 dessert types and a unified plating theme. ● Individual Performance Task: Personal Menu ○ Design an individual 1-product business concept including costing, packaging, and pricing. ● Group Task: Kitchenpreneur Food Booth Operation ○ As a group, plan and run a food booth—complete with menu, marketing, pricing, roles, workflow, and actual selling simulation.
