

TECHNICAL PROFESSIONAL

**MARITIME - MARITIME TRANSPORTATION
AT SUPPORT LEVEL**

Grade 12

**Three-Term Budget Of Work (BOW)
for Learning Competencies**

**TECHNICAL PROFESSIONAL
MARITIME
Grade 12**

**Three-Term Budget Of Work
For Learning Competencies**

Please note that each TechPro elective is completed within one term if delivered at Grade 12.

Term Plan	
Elective	Maritime Transportation at Support Level
Performance Standard	The learners perform look-out, handover and relief of the watch in conformity with acceptable practices and procedures. The learners carry out mooring operations, safe handling of stowage, securing of cargoes, and stores including dangerous, hazardous, and harmful substances and liquids. The learners operate deck equipment and machinery, apply occupational health and safety precautions, apply precautions and contribute to the prevention of pollution of the marine environment, and operate survival crafts and rescue boats.
Content Standard	• The learners demonstrate an understanding of the principles in shipping industry and safe navigational watch in navigating vessels. • The learners demonstrate an understanding of the procedure in mooring operations and handling of cargo and stores. • The learners demonstrate an understanding of the procedure in safe operations of deck equipment and machinery, occupational health and safety precautions, prevention of pollution of the marine environment, and survival crafts and rescue boats. • The learners demonstrate an understanding of the procedure in shipboard maintenance and repair.

Week	Learning Competency
*	• Discuss the shipping industry and its career opportunities. • Discuss the regulatory bodies and conventions in the maritime industry. • Discuss the stressors, and emotional challenges of seafarers. • Discuss the shipboard organization and its functions according to the level of responsibility. • Discuss the types of ships and operations, parts, dimensions, and terminologies used in ships direction. • Discuss the purpose of charter party agreement in the ship's trading services. • Discuss the safety and security code for the protection of personnel, ships, cargo and environment. • Discuss the purpose of bridge equipment and instruments used during ship navigation. • Analyze the common factors affecting the ship's stability. • Compare the duties of the deck watchkeepers for security and safety operation of the ship at sea, anchor, and port. • Perform fire patrolling onboard ship at the support level. • Use communication equipment for shipboard operations. • Perform ship steering. • Perform procedures in the relief, maintenance, and handover of the watch in conformity with industry standards. • Perform reporting of detected targets, sound or light signals, shapes, or other objects. • Demonstrate emergency duties in response to emergency situations. • Discuss the purpose of pyrotechnic, EPIRB and SART as used for distress signals. • Perform mooring operations in accordance with established safety practices and equipment operating instructions. • Perform safe handling of stowage and securing of cargoes and stores. • Perform safe working practices and use of appropriate safety and protective equipment to the identified task prior commencement of work. • Perform safe operations of deck equipment and machinery.

Week	Learning Competency
	• Perform rigging and unrigging • Perform seamanship skills • Perform hoisting and dipping flags. • Discuss prevention of pollution of the marine environment. • Discuss survival techniques. • Perform deck maintenance and repair activities in accordance with technical, safety, and procedural specifications.

** Teachers may assign learning competencies per week depending on the needs of the learners.*
